Recycled Rubber Sign Bases

All of our products are made from recycled tires. Each 60 lb. base rescues 8 tires from careless disposal.

"We continue to receive a strong and positive response from the quality of the environmentally friendly products that are offered, along with superior service..."

Mary E. Walser
Voss Signs,
Manlius, N.Y.

Our rubber sign bases are adaptable for a variety of applications with various signs, posts, and accessories.

- Ideal for parking lots, malls, schools, offices, crosswalks, industrial and construction sites.
- Durable, portable, interchangeable and convenient.
- For indoor and outdoor use—will not scratch flooring.
- Replaces rusted metal sign bases.
- Will not chip, crack or rust.
- Heavy models will withstand high wind.
- Bases clean up like new with standard tire cleaner.

Recycled Rubber Curb Ramps

All of our products are made from recycled tires. Each curb ramp rescues 7 tires from careless disposal.

Why use stone or cold patch? It's expensive, labor intensive and hard to contain. Our reusable curb ramps install in minutes and can be moved along with your project. Save time and money for future projects!

Our rubber curb and hose ramps are an economic solution for your temporary ramping needs. Now you can maintain driveway and business access during milling and reconstruction of public streets in an easier, less expensive way.

- Ideal for paving and milling operations
- Durable, portable and convenient.
- Reduce labor costs for installation and removal compared to stone.
- Eliminates stockpiling requirements for stone.

- Will not chip, crack or rust.
- Fast and easy installation.
- Ramps can be pinned together for wider applications.
- Available in 3½ and 5 inch rise
