

Roadside Safety Supply

Brea Cyn Rd

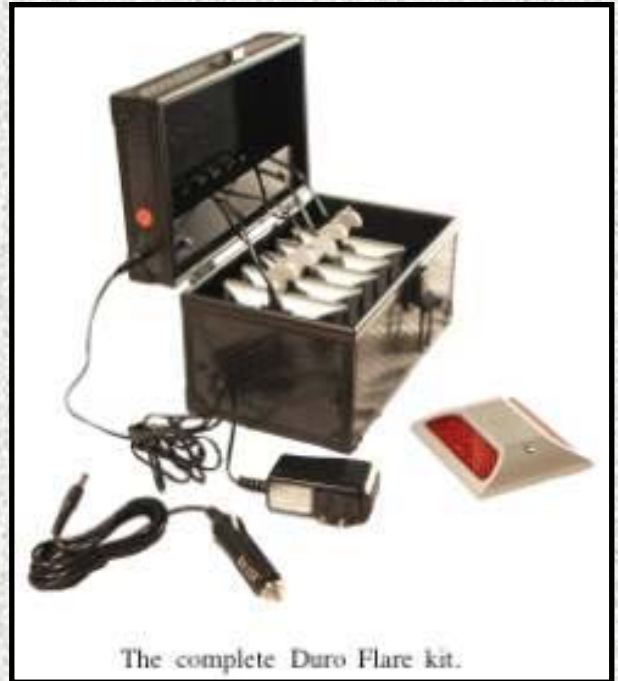

Some of our items fulfill the requirement for Temporary Traffic Control Devices as laid out by the Federal Highway Administration: 23 CFR Part 630 (FHWA Docket No. FHWA-2006-25203) RIN 2125-AF10 Subpart K.

XG388R (Red), XG388B (Blue), XG388A (Amber) Duro Flare

Sizes:

The box is black with LED's on the outside to show when the Duro Flash inside is fully recharged. The dimensions are 9.5" x 5.5" x 5.5" (excluding handle). The empty box weighs 1.5lbs and 7.7lbs will all six Duro Flash units inside.

Each Duro Flash unit is 4" x 4" x 3/4". They are cast aluminum alloy for extra strength and have been tested up to 20,000lbs. Each Duro Flash weighs just less than one pound.

There is also no worry of fire hazard as with standard flares.

XG388R (Red), XG388B (Blue), XG388A (Amber) Duro Flare

The Duro Flash was made with longevity in mind. It has no switches or moving parts to break off or become damaged. It is water and weatherproof.

The Lithium battery lasts four hours between charges. The on/off switch has been incorporated into the recharge design – plug it in to turn it off and charge it, and unplug it to turn it on and put it to work. If you are working a DUI checkpoint and someone attempts to take one from the road, they'll have a hard time hiding the brightly flashing LED lights from your search and you'll easily retrieve your Duro Flash.

Duro Flash Specifications

Unit Dimensions: Width 4.0" X Length 4.0" X Height 1.0"

Kit Dimensions: Width 5.5" X Length 9.5" X Height 5.5"

Unit Weight: 1lb

Kit Weight: 7.7.

Unit Enclosure: Aluminum Alloy. 10 ton weight capacity.

Battery: One rechargeable, hermetically sealed, polymer Li-ion. 300mAh, 3.7VDC

Battery Cycle: 5 hours continuous use. Recharges in 120 minutes for full charge but also can work at less than full charge..

Battery Life: 2 years depending on how stored

Working Temperature Range: Charging; 0C to +45C.

Discharging; -20C to +60C. **Storage;** -20C to +40C.

Illumination: 10 (5 per each side) "Super-bright" LED's rated at 15000mcd's per LED.

Night-Time Visibility: 3500 ft. depending on conditions..

Switch: Idiot-proof integral part of charging port. Unit will flash when not charging as a reminder.

Hermetically sealed: Tested underwater up to 15 ft..

All Roadside Safety Supply batons are durable, water resistant units. Batteries last up to 100 hours. Their bright, colored LED lights are visible up to 3000 yards away and good for over 100,000 hours of run time. Special, cold-weather shatter-resistant handles are available for all units.

XG-408RGB Multi- Color Baton

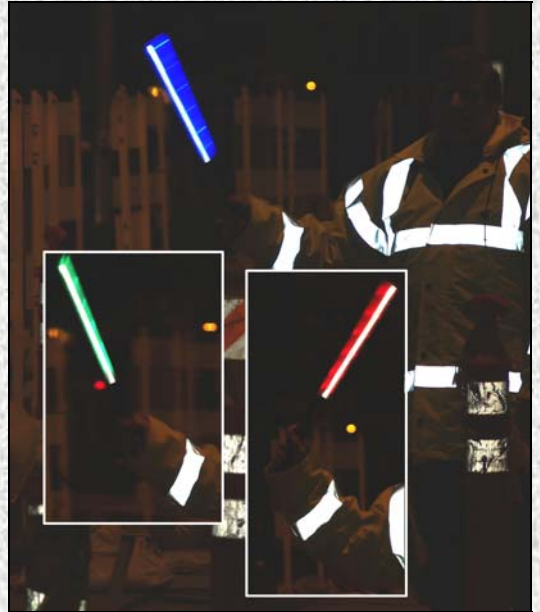

Features:

- 6 functions; Red flashing, Red steady, Green flashing, Green steady, Blue flashing, Blue steady

XG410 Baton

Features:

- Triple function: flashing warning and steady light
- LED color available in Red, Yellow, Blue, Green, White
- Uses 2xC batteries (not included)
- Standard size: 13.3"L x 1.5"W

XG411TW Baton with White LED Flashlight

-4 Function: White flashlight,
White flashlight with Red flashing,
Red flashing, Red steady

Cold weather, shatter resistant handles.

XH1119 Baton Stand

- One baton stand fits all RSS batons
- Hands free use for greater safety of all batons using baton stand
- Very Heavy Duty, weighs 4 lbs.
- Can function as traffic flare or delineator in an emergency.

XG411TWRG

Red/Green Baton W/ White LED Flashlight

- Functions include Red Flashing, Red Steady, Green Steady, White Flashlight, White Flashlight with Red Flashing,

XG412

Baton

- Triple function: Red flashing slow, Red flashing fast, and Red steady

XG511 Red Econo Flare

XG511A Amber Econo Flare

XG6026 Blue Econo Flare

- Option of red, yellow, or blue super bright LED bulbs (Red for emergency, yellow for warning)
- Flashing or steady LED light can be seen up to 2500 yards away
- Strong magnet and road stand for easy mounting in any situation
- Water resistant
- Uses 4xAA batteries (not included)
- Battery friendly – can last up to 100 hours!
- Size: 6.5" x 4"

The Econ Flare is available in a sturdy, waterproof hard case or a sleek canvas bag. Each holds six Econo Flare units.

Case measurements: 10 1/2" x 9" x 6" ; Bag: 21 1/2" x 10" x 2"

XG5861, XG5861A Safety Blanket

Features:

- 36 Super bright red LED bulbs in waterproof clear caps.
- Double function: Lighted warning & reflective arrow surface.
- Flashing, solid, and directional flashing settings
- LEDs visible up to 2500 yards

- Self-illuminated reflective light can be seen up to 200 yards away
- Strong magnet & grommet on all sides allow hanging on any surface – magnets work great on tailgates!
- Standard size: 44 1/2" x 19 1/2"
- Custom length & width & number of LEDs optional
- Water resistant design

- Carrying case included. Uses 4xAAA batteries (not included) or optional car plug
- Available in Red, Orange, and Black

XG6020

“SLOW” Magnetic Sign

- LED lights and reflective lettering (as per Safety Blanket, pg 2)
- 12” x 29 1/2”

XG434

Reflective Vest

- Super Bright LED lights visible up to 1600 yards
- Bright, self reflective tape visible up to 200 yards
- Uses 2 x AA batteries, located in the front pocket for easy access (batteries not included)

XG28L

Collapsible Cone w/Light

Features:

- Easily visible, 360 degree reflective tape
- 28" Height, with a base of 32cm x 32cm x 5.5cm
- 2.1kg

XG28

Collapsible Cone

- Easily visible, 360 degree reflective tape
- 28" Height, with a base of 32cm x 32cm x 5.5cm
- 2.1kg

XG18

Collapsible Cone

- Easily visible, 360 degree reflective tape
- 18" height

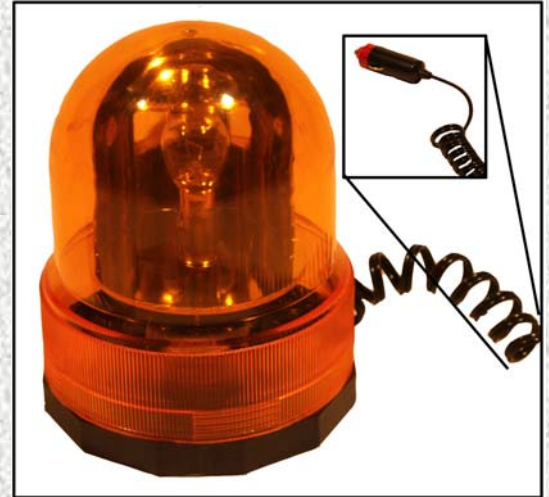

All collapsible come with crisp, water resistant carrying cases.

XG800

Magnetic Revolving Light

- Shell: Amber
- Size: 6" x 5"
- W/magnetic base, bulb: XG8008W
- W/12" stretchable cable: XG80012V

XG6025

Yellow 3M Scotchlite Breakaway Vest

- Four breakaway points: two upper chest, one on each waist side
- Reflective bands around entire coat offer high visibility
- Outer pen pocket and inner breast pocket

XG805 Armband

- Velcro
- 4 bright red LEDs
- 3M reflective tape
- Long Enough for use on heavy coats or arms or pant legs.
- Excellent way to be seen when you are working roadside.

XG1205

LED Hat Light

Three superr-bight LED's show you the way, clipping easily under the bill of any baseball cap.

XG1122

- Mega-Phone w/ Siren
- Range .3-.4 miles depending on operating conditions
- Powered by 8 C batteries
- Weight 3.6 lbs without batteries
- Dimension 9" x 13 1/4"

XG1203

Foldable Triangle Reflector w/case

- 27 bright LED's
- DOT approved reflective material
- 17" length triangle
